## PROFESSIONAL EXPERIENCE

**Associate Web Developer** | Accord Tech Solutions, Mirpur, Dhaka (Full-time, Onsite) **December 2025 – Present**

- Design and deploy agentic AI systems in Python that automate Salesforce and Studio Designer CRM workflows for internal and client-facing use.
- Built a multi-agent CRM system: a main agent orchestrates specialized sub-agents (contact research, billing item listing) across multiple accounts.
- Developed a resumable title and LinkedIn discovery pipeline for approximately 1,460 contacts, with confidence-based matching and checkpoint/resume logic.
- Built the company Social Media Agent (Python + Telegram bot, Docker, GitHub Actions, Railway) and a no-code Make.com version for non-technical staff.

**Digitalization Intern** | Dream71 Bangladesh Limited, Agargaon, Dhaka (Full-time, Onsite) **July 2025 – November 2025**

- Digitized official documents for ISPAT (NGOAB, supported by UNDP Bangladesh and Australian Government), ensuring accuracy, data validation and confidentiality.

## CORE TECHNICAL SKILLS

**AI / ML:** Machine Learning, Deep Learning, NLP, LLM Applications, Agentic AI, Multi-Agent Systems, Prompt Engineering, Explainable AI (SHAP)

**Frameworks & Libraries:** TensorFlow, PyTorch, Keras, Scikit-learn, Hugging Face, Pandas, NumPy, NLTK, Matplotlib, Seaborn

**Programming:** Python, SQL

**API & Integration:** REST API Integration, Salesforce API, Facebook & Instagram Graph API, Telegram Bot API, Make.com Blueprint API, JSON-based Workflow Automation

**Automation & Data:** Playwright (CDP-attach, anti-bot handling), Selenium, BeautifulSoup, Requests, ETL Pipelines, openpyxl, Data Cleaning & Validation, Checkpoint/Resume Logic

**DevOps & Deployment:** Docker, Git & GitHub, GitHub Actions (CI/CD), Railway, VPS & SSH Deployment, Environment/Secret Management

**Tools:** Claude Code, VS Code, Jupyter Notebook, Make.com, Google Workspace, Microsoft Office

## RESEARCH & PUBLICATION

**A Precise Machine Learning Model: Detecting Cervical Cancer Using Feature Selection and Explainable AI**, *Journal of Pathology Informatics*, September 2024. https://doi.org/10.1016/j.jpi.2024.100398

- Developed a feature-selected machine learning model to classify cervical cancer risk from medical data, using scikit-learn for modeling and SHAP for explainability.

## SELECTED AI PROJECTS

**Salesforce CRM Agent** | *Python, Playwright (CDP-attach), openpyxl, Salesforce API*

- Agent that looks up active customers, researches contact and LinkedIn details, and writes results back into Salesforce and Studio Designer automatically.
- Includes a resumable title and LinkedIn discovery pipeline for approximately 1,460 contacts across 529 accounts, with human-like anti-bot behavior and session reuse.

**Multi-Agent CRM Automation Agent** | *Python, Playwright, openpyxl, Salesforce, Studio Designer CRM*

- Main agent runs specialized sub-agents (item listing, time billing), reading from Excel and updating Studio Designer CRM across multiple accounts for a client.

**CampaignScout Agent** | *Python, Google Places API, PageSpeed Insights*

- Multi-agent enrichment pipeline for a 2,253-contact staffing-industry CSV (925 companies): adds Google rating, review count, SEO score and AEO score, with checkpoint/resume and CLI controls.

**Autonomous Social Media AI Agent (Script-Based)** | *Python, Groq LLM, Stability AI, Facebook Graph API, Telegram Bot API, Docker, GitHub Actions, Railway*

- Autonomous agent that uses an LLM to write captions and generates images, then schedules and publishes Facebook posts, controllable through a Telegram bot.
- Containerized with Docker and deployed on Railway with automated workflows via GitHub Actions.

**Social Media Automation (No-Code Version)** | *Make.com, Google Sheets, Google Drive, Facebook & Instagram Graph API, Python*

- Router-based multi-platform scenario that reads approved content from a Google Sheet, fetches media from Google Drive and posts to Facebook and Instagram, with Telegram success/failure notifications.
- Managed scenario blueprints via the Make.com API and optimized data transfer per run.

## EDUCATION

**B.Sc. in Computer Science and Engineering** | Daffodil International University — January 2021 – January 2025
CGPA: 3.45 / 4.00

**Higher Secondary Certificate** | Afaiuddin Memorial College — 2018 – 2020
GPA: 4.67 / 5.00

## LEADERSHIP & LANGUAGES

**Press Secretary**, Cyber Security Club, DIU — August 2023 – March 2024

- Managed club communications and public relations; organized cybersecurity events, workshops and seminars; prepared press releases and newsletters.

**Languages:** Bangla (Native), English (Fluent)
